

## Coventry Policy July 11, 2012

### Old Business:

- The update on Moran Road BAN. The bond has been returned by Mr. Diehrline as it needs some modifications.
- George W. would like measurements taken of the posts that need to be replaced on the Pavilion.
- The Code of Ethics is with the Lawyer at this time.
- At this time the Town will not take any actions for or against Gas drilling. The DEC will be the deciding factor in how the Town votes. All the Board members are in favor of waiting to see what the DEC has to say before making a decision.
- There was some discussion on the Pipeline lease. It was stated that we have one person that will be the contact person, so that there is no missed communications. Doug and Bob will work together on this.
