**George L. Westcott  
Coventry Town Supervisor**

**Theresa A. Schultheis  
Coventry Town Clerk**

**BOARD RESOLUTION:** Whereas New York State has been working for nearly four years to create a comprehensive plan for development of its natural gas resources and whereas Governor Cuomo has said that a community's desires should be considered in the permitting process, therefore be it resolved that the Coventry Town Board would support a natural gas development plan implemented and administered by the New York State Department of Environmental Conservation (DEC) which would safeguard all aspects of the local environment, recognize the established rights of property owners and hold the natural gas industry to the same standards as other industries within the state.

Date: July 20, 2012
