

MINUTES OF THE REGULAR BOARD MEETING
HELD AT BRADFORD TOWN HALL COMMENCING AT
6:30 P.M. June 5, 2012

Old Business:

Resolution regarding support of natural gas: some discussion about remaining neutral because it should be up to the landowners to make the decision. All are against a moratorium, a support under DEC for natural gas development. They don't see anything negative to signing but nothing beneficial either.

Resolution #29/2012

The Town Board of the Town of Bradford did not actually pass the resolution and has determined that they will not pass the moratorium. The board did pass the following resolution: "The Town Board of the Town of Bradford fully supports landowners and their decision to determine the fate of their own property regarding the development and production of natural gas." Councilperson Borkowski made the motion, seconded by Councilperson Cogswell. Carried.
